Software development student seeking an 8-month co-op starting May 2027

EDUCATION

Mohawk College, Hamilton, ON Expected 2028

Computer Systems Technology, Software Development (Co-op, 3-year advanced diploma)

EXPERIENCE

Logistics Associate, Level 3 (Acting Warehouse Supervisor), IKEA Aug 2024 to present

Burlington, ON. Promoted through five roles: Warehouse, Click & Collect, Home Delivery, Sales Location Management, Acting Supervisor

- Keyholder who opens and secures the building and runs the warehouse when managers are off site
- Found that evening delivery staging lost 4 to 5 hours of labour per shift because two systems shared order data with no automated link; proposed a system sync and route-based picking pod that was adopted, cutting up to 4 to 5 hours per shift
- Built a web simulation to present the change to management, and a team operations dashboard for tasks, breaks and order cutoffs (launching November 2026)
- Selected as store ambassador for the new Click & Collect check-in system; led the rollout and trained 15+ coworkers with training tools I built
- Ran home delivery operations: bookings, routing, freight, inter-store transfers, damage returns and refunds; maintained sales location data in Excel

Founder and Owner, MXM Detailing Jan 2022 to present

- Started a mobile detailing business door to door with a wagon and grew it to about 1,000 cars and 100+ customers, including dealerships on monthly retainers

Academic Tutor, Tutor Teach Nov 2024 to Feb 2026

- Tutored about 25 Grade 12 and first-year university students in Python, Java, C++, algorithms, data structures, math and physics

Team Lead, Tim Hortons, Burlington, ON Oct 2022 to Feb 2024

- Led shifts of 10 team members in a high-volume store, running daily operations and the drive-thru

PROJECTS

MXM Booking Platform React, C#, ASP.NET Core, SQL Server, Azure

- Booking and quote system for my detailing business: customers build a package, upload car photos and send a request I approve or decline
- Owner dashboard with two-factor login, customer records and retainer tracking; 380+ automated tests and a GitHub Actions pipeline

MuzzOS Portfolio React, Vite, Motion, GitHub Actions

- Portfolio built as a desktop-style OS in the browser with draggable windows, a working terminal and a phone mode; Lighthouse 90+

Riipen Labs Client Projects March to April 2026

- Project Lead, EduTutor: led a team building a customer acquisition strategy; kept it on track after two of four members left
- Operations Lead, Art Circle of Alberta: revenue strategy and a new Next.js website for a Calgary arts collective

SKILLS

Languages: C#, Java, JavaScript, SQL, Python, HTML, CSS (learning C and C++)

Frameworks and tools: React, ASP.NET Core, Next.js, Git, GitHub Actions, Azure, Visual Studio, Linux, Excel
